

Environmental Sustainability Policy Statement

SEC Group is committed to protect, care and nurture both our staff and our environment. We incorporate environmental protection into our strategic decisions and conduct our business in a manner that balances the environmental and economic needs of the communities in which we operate.

We will comply fully with all relevant environmental legislation and other requirements to which our organisation subscribes, including appropriate industry guidance and best practice;

Our implementation and operation will involve managing and minimising, greenhouse gases toward net zero, energy use, water usage and discharge, waste, hazardous substances, transport and travel, biodiversity management and enhancement, and management and application of local environmental planning requirements.

Committed to reducing SEC's environmental impact by ensuring that every element of our organisation's activities, products and services that interact with the environment are well managed;

Work with partners, clients, supply chain, contractors, interest groups and others, government and non governmental bodies, to reduce our environmental impact. Including, any changes to the environment whether adverse or beneficial, wholly or partially resulting from SEC's environmental aspects;

Create a cleaner and greener environment by making continuous efforts to be energy efficient and practice Reduce, Reuse, and Recycle in line with our sustainability objectives;

We will monitor, evaluate, review and continuously improve our environmental management practice, to ensure efficient use of the earth's limited resources;

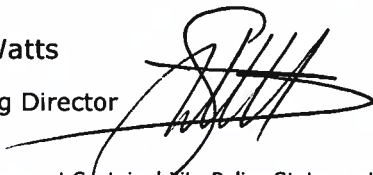

Formulate and maintain an effective environmental management system;

This environmental sustainability policy shall be committed to our stakeholders including; staff, contractors, supply chain and make it available to any other parties.

SEC Group shall use in house training to ensure that all staff are aware of this policy and their role in achieving our set targets and objectives.

Steve Watts

Managing Director
