sec exports Warehouse Storage Equipment International International 2023 **⊘** Dexion<sup>®</sup> www.sec-exports.co.uk

SEC Exports offers customers a wealth of experience in the design and installation of quality shelving, pallet racking and warehouse storage solutions for the overseas market.

With over 20 years of global experience in market sectors including agriculture, mining, oil and gas, the SEC Exports sales team continues to offer valuable insight into storage solutions tailored for installation overseas, drawing on innovative design solutions to meet the diverse needs of our customers.

We want you to find using our products or installation services an easy and beneficial experience for your company wherever you are located. Please contact us so we can share our knowledge and experience with advice on products, loadings, layouts or alternatives, for a truly bespoke warehouse storage solution.

### SEC Exports - Intelligent Warehouses, Globally Delivered

### Bespoke Warehouse Storage Equipment

Our Product range includes the complete, world leading shelving and racking range from Dexion and as an authorised export distributor for Dexion products we have the advantage of having access to design data, manufacturing, and main warehouse stocks.

We also supply mobile storage solutions, handling and access equipment, partitioning, and mezzanine flooring. With our many years in the industry we are able to provide layout, design, and installation services to deal with any storage requirement and have gained a reputation for effective, economic and, high quality supplies.

As we have access to a vast range of storage & materials handling products and our catalogue can only show a limited range, if you require other sizes or similar products, please contact us with your requirements and we can send you a quotation.

### Data-Driven Design Innovation

Our award-winning warehouse design capabilities are data driven using our in-house data analysis system, known as ELSA. Utilising Machine Learning, ELSA is able to create the optimal number of movements within a warehouse environment and subsequently dictates the most appropriate design solution to optimise pick faces for efficiency, ensuring Everything Lives Somewhere Appropriate.

ELSA offers SEC Exports customers innovative warehouse design solutions which are more effective and efficient, reducing return on investment periods substantially.

### Shipping & Installation

We can offer our products for collection from our factories & warehouses located in the United Kingdom and throughout Europe, or transport to your closest port, or directly to your site.

We can also advise on best freight or shipping methods & costs, and can arrange insurance & documentation to meet your requirements. In some areas of the world, we have local distributors for some of our products.

### Customer Service Excellence

We work with closely with our customers across large & small organisations, private sector and Government departments and can deal directly with you or your architects, engineers or contractors.

The team at SEC Exports is further enhanced by the SEC Group's award-winning design team, established supply chain, and a dedicated and skilled installation resource, to deliver innovative storage solutions for our overseas customers.

Official Distributor of

## About Us

SEC Exports Ltd is a member of the highly successful SEC Group of companies.

The SEC Group have been designing, supplying & installing storage equipment, office interiors and cleanroom enclosures for over 20 years.

SEC Storage - By designing award-winning solutions based on detailed data analysis, we create a more streamlined and efficient process for your warehouse and logistics operations.

SEC Interiors - delivers award-winning solutions to create a more streamlined and efficient process for your office work environment. Through design innovation and a diverse product range, our solutions are suitable for any type of premises.

The CleanRoom Company - specialises in providing expertise in cleanroom installation, construction, design, furniture, storage equipment, environmentally controlled rooms, and cold rooms.

Our worldwide storage equipment solutions are bespoke to each customer's needs and we offer a full turnkey service covering design, installation and project management to ensure peace of mind from start to finish. Our Services Include:

- World leading product supply
- Site surveys and safety checks
- CAD designs and layouts

- Quotations
- Loading and structural calculations
- International payment and finance options
- After sales service
- Export packing and shipping
- Export documentation
- Installation supervision
- ISO, SEMA, FEM, EN certification

SEC Exports offer British and European manufacturing at its best through the product range of Dexion and other manufacturers, ensuring our reputation for delivering world-leading products and high quality installations.

We believe that providing a swift, personable and professional customer service should be at the heart of what we do. The solutions we provide are based on understanding your requirements, establishing the most effective strategy or design and supplying only the most suitable solutions for you.

Intelligent Warehouses. Globally Delivered.

## 9-Stage Design Process

Requirement Gathering

Ascertain
strategically what
the client wants
to achieve and the
business case for
doing it

Carry out quantitative & qualitative analysis of current operations

Concept Production

Extensively review
the requirements &
produce a conceptual
design that will be
analysed and reworked
until it fits the project
brief

Spec, Quote & Financial Terms

We now produce a
detailed specification
of works, quotation,
build-plan, expected
ROI report and
financial terms are
discussed

\_\_ Presentation & Sign-Off

With a completed design, we now present the solution to the client for discussion

Design Optimisation

Every aspect of the project from the structural engineering requirements to the health & safety design will be reviewed & approved

Order Placement & Financial Agreement

If the client wants to proceed with the order they provide a signed contract or contract to proceed Project Delivery

We manage the procurement & export of materials & work with our expert project supervisors to oversee installation

Solution

Optimisation

We provide postsale support, education programs, move management assistance & future planning workshops so that the final solution maximises its value

### SEC Awards

STATE OF PERSONS

The Dexion company (from the Ancient Greek meaning 'Right') was originally founded by Demetrius Comino. Comino developed the 'Dexion Slotted-Angle' (1947), which introduced the world to adjustable storage and would go on to blaze the trail for Dexion's purpose-built pallet racking and shelving systems.

Today we are one of the world's leading providers of warehouse logistics solutions. Since January 2018, Dexion has been a member of the Gonvarri Material Handling Group, which also includes the leading industrial brands Constructor, Kasten, Stålteknik, Kredit & Kaufmann.

With a total of 7 production sites, we supply our customers worldwide with tailor-made logistics solutions. From static racking to fully automated storage systems, we provide our customers worldwide with complete solutions for their warehouse.

We employ 1,300 people. We are also represented in Europe and in large parts of the world such as Africa, the Middle East, the USA and South America with an extensive distribution network. No matter where you are, as a global player we are always close at hand.

In-house testing lab

7 manufacturing facilities

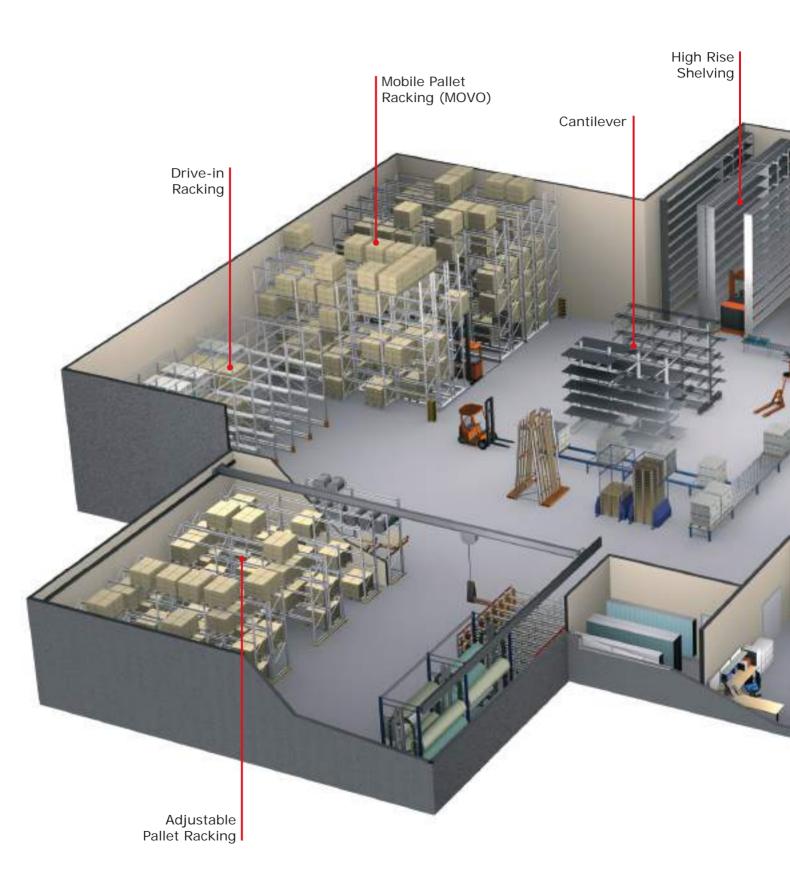

Ethical commitment

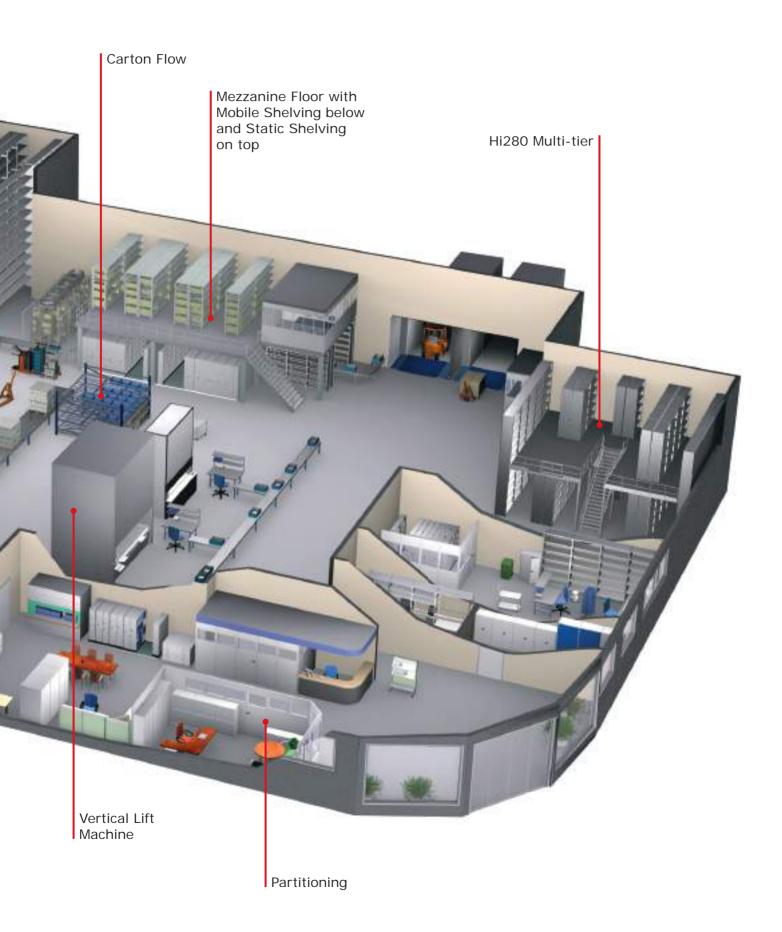

400 customer facing staff

Dexion, for all your warehouse storage solution needs.

The Hi280 Shelving system's applications are vast. You can build it as a traditional shelving system; a high-rise installation, or a multi-tier system. Whether you're operating standalone or manually-served picking, or a large, fully-automated central store.

Hi280 Shelving is a galvanised, flexible and versatile storage system for small-parts handling.

### Configurations

Wide Aisle
Narrow Aisle
Medium Span
Mobile Shelving
Multi-tier Shelving
Ship Shelves and Cabinets

We have multiple bay configurations to suit your storage needs. If you don't see a solution that meets your requirements, talk to our team.

Our range of optional Hi280 accessories and add-ons allows for additional adaptation for stored goods for unique physical space needs.

### Full Height Dividers

Used to separate stored items & create shelf locations. Various sizes available

### **Pull Out Drawers**

Suitable for smaller goods. Supported on expansion slides. Drawers can be divided

### Plastic Trays & Bins

Please see page 11 for more details

### Bin Front

Fitted to the front and/or back of a shelf to prevent items falling from the shelf

### Tyre Brackets

Allows the tyre to rest on a larger surface to avoid point loads & flat spots. (2 required per level)

### Drawer Nest

For storing small parts. Drawer nests go directly on the Hi280 shelf or guided frame

### Part Height Dividers

Used to sub-divide the shelf into smaller compartments. Various sizes available.

### Base Plinth

Fitting at the front, below the first shelf. This prevents items entering the space beneath

### Lockable Doors

Full height lockable doors. Part height doors available - please call for details

Our shelving solutions are designed specifically to fit the exact layout of your warehouse or storage facility. Our range of optional accessories and add-ons allows for additional adaptation for stored goods or for unique physical spaces.

The Hi280 Accessories range is flexibile, versatile and helps provide a customised solution to meet your operational needs.

P90 Pallet Racking easily adapts to your specific warehouse and storage requirements, thanks to a variety of widths, depths and heights. In fact, P90 Racking will fit into any space available, and is suited to all kinds of pallets – whether they be Euro, Chep, disposable or captive pallets, mesh boxes or bins.

The modular, future-proof system adapts perfectly to your particular needs – thanks to different beams, angle supports and shelves and extensive accessories range.

Whatever the industry, there's a range of storage systems that can provide optimal storage economics. From Drive-in Racking or Mobile Racking (MOVO) for frozen and cold-store goods; to First-in, First-out (FIFO) Pallet-flow systems for bulk goods such as those with a "best before date".

# Mobile Pallet Racking (MOVO)

Mobile Racking (MOVO) is a dynamic solution providing up to double the storage capacity in the same area, of conventional pallet racking. Offering technical superiority and total flexibility, MOVO is suitable for every kind of stored goods, and has a wide range of accessories.

The electronically controlled MOVO high-load racking system runs on in-ground rails and can carry bay loads of up to 30 tons at racking heights of up to 15 metres. While state-of-the-art sensor technology and variable control options ensure ease of operation and absolute safety.

### MOVO vs Conventional Pallet Racking

### **Conventional Pallet Racking**

>> Total area: 625 m<sup>2</sup>

>> No. pallet places: 1152

>> Floor space used: 74 %

### MOVO - increased capacity

>> Total area: 625 m<sup>2</sup>

>> No. pallet places: 2304

>> Floor space used: 74 %

### MOVO - space saving

>> Total area: 625 m<sup>2</sup>

>> No. pallet places: 1152

>> Floor space used: 46 %

### **Technical**

**Trolley length:** up to 90 m **Rack height:** up to 15 m **Bay width:** up to 5 m

Operating temperature: -30°C to +40°C (optional down to -40°C)

Bay load: up to 30 tons Shelf load: up to 6 tons Speed: up to 4.2 m/min

### Why MOVO?

- >> Ultra high density storage
- You need to increase your storage, but can't expand your warehouse
- It's great for the food industry, can be used in ambient or cold store
- >> 100% Pallet accessibility

### Control system

We offer a variety of control options for a tailored solution that meets all your requirements:

- >> Light control only the open aisle is lit
- >> Commission mode open pre-selected aisles
- >> Night position improves air circulation
- >> Sprinkler position a mode for fire protection
- >> Remote Control - diagnostics and maintenance performed by technicians
- >> Remote selection via radio control - fork lift drivers can open aisles before arrival

### Rails

The design and quality of the rails together with correct installation, is a prerequisite for a safe, well working MOVO-system.

MOVO rails are made from low profile steel and can be installed on an existing floor or integrated into a new floor. In either scenario concrete is moulded between the rails to form a flat floor ensuring an even operating surface.

### Mobile trolleys

MOVO trolleys are electrogalvanized and ideal for ambient, chilled or cold stores. They have a bolted construction that ensures easy replacement of damaged parts. The trolleys are available in a number of different load capacities.

### Pallet Shuttle System

The Pallet Shuttle system is a semi-automated, high-density storage solution for the handling of goods inside channels similar to a drive-in or pallet-flow setup.

Cost-effective and time-saving, it removes the need for forklift trucks to enter the racks.

The remotely controlled Pallet Shuttle is a highly efficient alternative to live storage and drive-in racking. The Pallet Shuttle system works either as First in, First out (FIFO) or as Last in, First out (LIFO) for operations with a reduced number of product lines stored in high quantities.

### Why Pallet Shuttle?

- >> Offers more effective, high-density storage
- >> Reduces the number of forklift trucks needed
- >> Long term storage of goods
- >> Potential first step to a fully automated solution

### Drive-in

If you're storing large quantities of similar or identical goods, the P90 Drive-in Pallet Racking can free-up as much as 90% of existing floor space, compared to conventional pallet storage.

P90 Drive-in Pallet Racking creates efficiencies by reducing aisle loading and unloading times, yet allowing greater access compared to block-stacking. Positioning pallets on front-to-back rails allows rows to be stacked next to each other safely and efficiently; crucial for items regarded as fragile or unstable.

The Last-in, First-out (LIFO) principle means individual pallets can be accessed one-by-one from the front of the rack.

### Why Drive-in?

- >> High density, high storage volume
- >> Limited stock rotation ideal for seasonal goods and chilled storage

### **Pallet Flow**

Pallet Flow Racking, or 'Pallet Live Storage' is ideal if you operate a First-in, First-out (FIFO) goods storage setup. With this system you can use up to 60% less space than if you were to use conventional pallet racking.

Our Pallet Flow system offers a dynamic storage solution with integrated conveyor modules to suit most pallet types and sizes. It's well-suited for the drinks industry or as a buffer storage facility in manufacturing.

Pallets travel smoothly on full-width or twintrack rollers. While the front pallet is removed on the front side of the rack, the rear pallet is held back. Pallet movement is always safe and smooth thanks to automatic braking, along with a combined load guide and end stop unit.

### Why Pallet Flow?

- >> Bulk / high density storage
- >> More efficient alternative to block stack
- Ideal for logistics flow in a warehouse or production facility

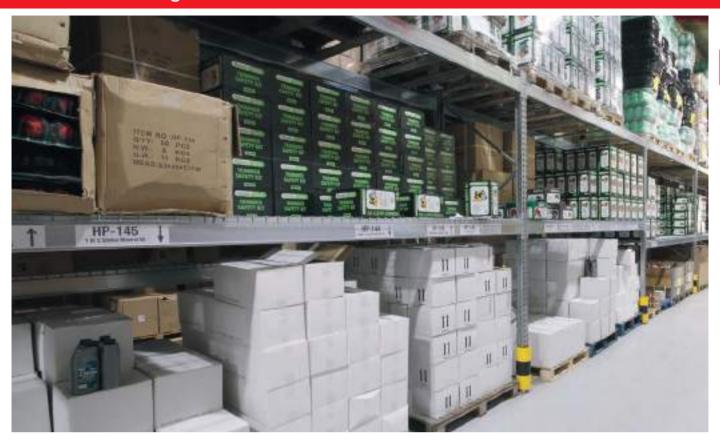

We have multiple bay configurations to suit your storage needs. If you don't see a solution that meets your requirements, talk to our team.

### Typical P90 Bay Configurations

			Starter Bay		Extension Bay

P90 Pallet Racking easily adapts to your specific warehouse and storage requirements, thanks to a variety of widths, depths and heights. It is suited to all kinds of pallets – whether they be Euro, Chep, disposable or captive pallets, mesh boxes or bins.

The modular, future-proof system adapts perfectly to your particular needs – thanks to different beams, angle supports and shelves and extensive accessories range.

### **Bay Kit Specifications**

Frame Height: 4500mm, 5500mm, 6000mm, 8000mm or 10000mm

Frame Depth: 900mm or 1100mm Beams (6 beams per bay)

**Beam Length:** 2700mm **Colour:** Orange (RAL 2001)

## **TUV Certified** pendulum test method Troax anti-collapse system is tested and approved by TÜV Rheinland to withstand an impact of 2,500 Joules.

Anti-collapse system prevents any risk of spillage from pallets in warehouse storages. The system is used for safe handling and storing of products in a logistics environment. It is made from fully welded mesh and steel frames and is strong and durable.

The panels are available in three models with different safety levels to suit your specific needs. The Anti-collapse screen can be made from 700mm, 1,200mm and 1,500mm high panels by 1,100mm and 2,200mm wide.

> Please call us for further details & advice

### **Speed Bolt**

Speed bolt is developed for the anti-collapse system. The speed bolt is a perfect fastener, especially when you require a fast & safe assembly. It's only one item which you mount from the front and you don't need to reach around the backside of the upright.

Uni-bracket is a versatile bracket which can be mounted in four different positions. The unique kit secure method keeps the panels locked in position. It has a cut-out which eases the removal of pallet racking beams located near the brackets. A user-friendly system as it can be built more logically from the bottom of the screen upwards.

### Warehouse Partitioning

Anti-collapse system prevents any risk of spillage from pallets in warehouse storages. The system is used for safe handling and storing of products in a logistics environment. It is made from fully welded mesh and steel frames and is strong and durable. The panels are available in three models with different safety levels to suit your specific needs. The Anti-collapse screen can be made from 700mm, 1,200mm and 1,500mm high panels by 1,100mm and 2,200mm wide

### Mesh Shelves

(UR350 & UX450) 50×50 mm mesh

panels are an ideal solution for providing a safe working environment that allows natural light and ventilation.

(UR325)

25×25 mm mesh panels are adapted for applications that require a high level of safety, such as storing aerosols, or hazardous or high-value goods. The panels allow natural light and ventilation.

**Locks for Doors** 

PANIC BAR

For emergency evacuation. Available as a hinged door, fitted with euro profile cylinder. The Troax Panic Bar meets the requirements of norm EN1125

**ABLOY EL460** 

A kit with the electrical lock ABLOY EL460 is combined with split function for emergency exit from the inside

KNOB AND HANDLE

When it shall be possible to open the door from the inside with only the handle and necessary to use a key from the outside

ASSA CYLINDER

A frequently used door, which can be used both locked with a key or unlocked with just the handles.

(UR300)

100×50 mm mesh panels are a lighter alternative to 50×50 mm, but still a perfect solution for providing a safe working environment.

(URSP)

Full steel
Modular panels are
ideal for creating
storage areas for
storing goods out of
sight. They are made
from profiled steel
sheet and available in
a number of different
standard widths.

EURO CYLINDER

A frequently used door, which can be used both locked with a key or unlocked with just the handles.

ELECTRIC STRIKE

When an electric keyless control is needed. For example together with a tag/ code/ card system.

PADLOCK

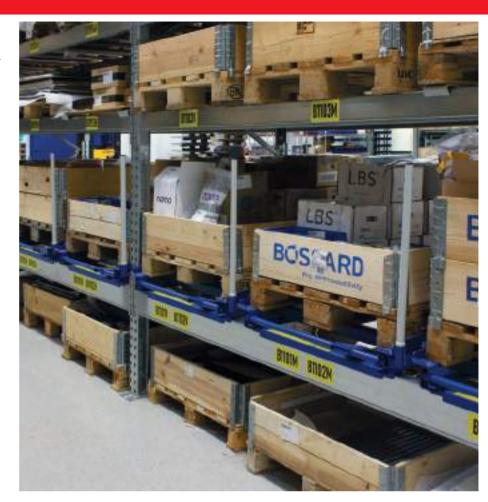

For less frequent access.

Our pallet Pull-out units let your teams move pallets back and forth like drawers, even with a full load up to 1000kg. With such efficient storage, they can free up the excessive clearance distance needed above pallets.

The pallet Pull-out unit saves both time and space to ensure an efficient working environment and ergonomic picking. By installing pull-out units in your pallet racking, the number of pallet and picking locations can be increased, while still taking up the same space as before.

What's more, shorter operation distances allow for faster and more efficient picking, while at the same time freeing up valuable floor space.

Watch the Pull-out unit video

Contact us to find out more about the other Pull-out units we offer including beam mounted, upright supported and electric models!

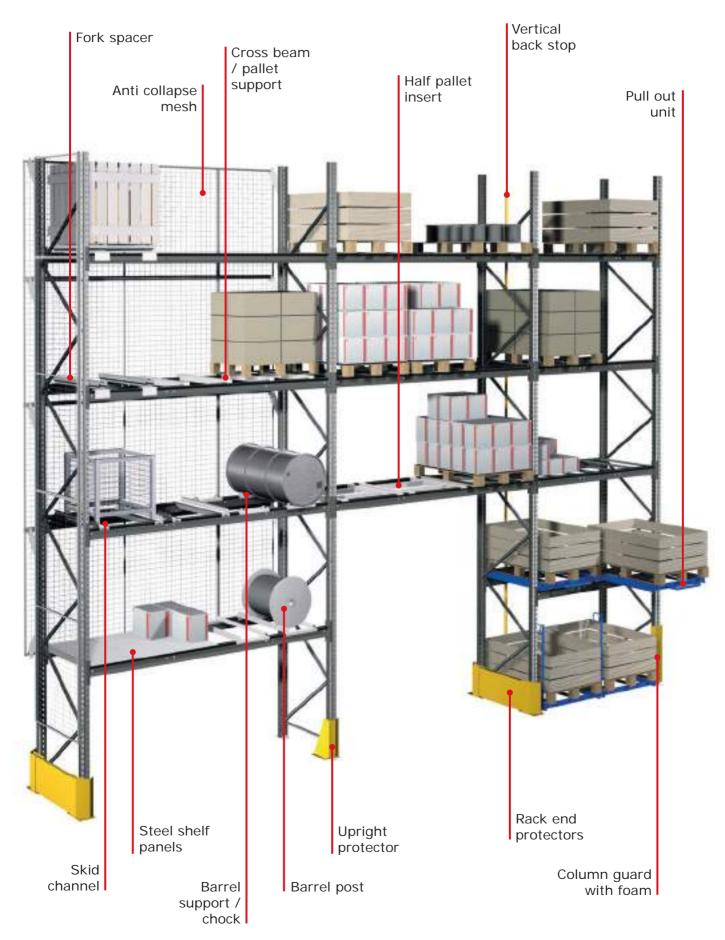

### Floor mounted Pull-out units

Description	Model	Price

Pedestrian and vehicles are often in close contact within company premises. When they share the same operational spaces, it is necessary for Health and Safety to highlight and regulate their respective areas. Designed to be modular, our pedestrian segregation barriers are easy to install, easy to clean and maintain as well as being weather resistant, UV tested and suitable for food and pharmaceutical environments. Available with LED lights for use in outdoor areas.

If pedestrians are in a high-risk area, a suitable safety guardrail designed to withstand impacts can be installed independently in front of the pedestrian handrail or segregation barrier.

### Racking, Wall, Machinery & Door Protection

A range of impact bollards and guardrails available to protect vulnerable parts of warehouse racking, walls, equipment and doors. Bumps, scrapes and collisions inevitably lead to damage, safety concerns and extra repair costs. High visibility bollards with LEDs available for external use in road and traffic areas.

# Unique FIXA Block System® with 5 Year Guarantee\*

STOMMPY® Impact Safety Systems offer exceptional resistance as they are made from our patented high performance polymer, Tecklene®. This is flexible, strong, easy to clean and it doesn't rust or need repainting. In addition to general warehouse use, it is certified for use in all food and pharmaceutical environments.

Our patented floor anchor FIXA Block System® has increased the pull-out resistance of the floor fixing to over four times that of a traditional anchor. All barriers/bollards are fixed within their footprint which ensures bolt heads cannot be pulled out of the floor.

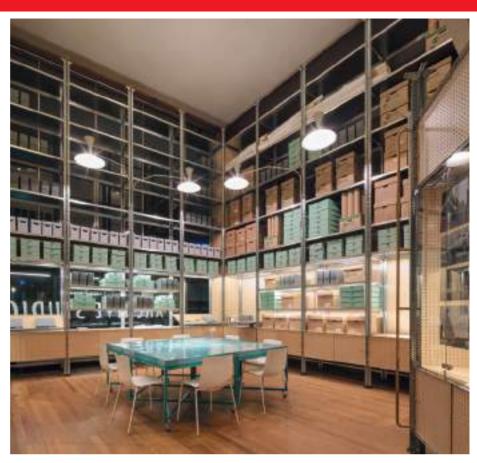

The Dexion Slotted Angle construction system has been around for 75 years. It is the original slotted angle product - and is still the best. Whether it is used to build specialist shelving, racks, trolleys, benches, mounting jigs, suspension systems, security caging or support frameworks, it gets the right angle on every job.

The Dexion Speedframe construction system allows you to design & build your own frameworks. The tube can be simply cut to length, inserts tapped in and the joints (the connecting pieces) put together; add a few accessories and the framework can become whatever you require: a bench or desk frame, a trolley, a variety of display stands and more.

Speedlock Mk3 uprights & beams are manufactured using high quality steel. The uprights are pre-galvanised and the beams are powder coated.

Additional Dexion Speedlock Mk3 parts are still widely available through our nationwide network of Approved Dexion Distributors for both repair works and extensions to existing pallet racking installations.

Today's components are manufactured to the same specifications and high quality as the original Dexion Speedlock Mk3 racking.

> All common sizes typically available from stock Extensive range of accessories

## Uses

Available for repair work and extensions to existing Mk3 installations.

# Cantilever

Designed to meet nothing less than your precise requirements, our cantilevers are exceedingly versatile whatever your work environment, and with no front uprights, all levels are available to forklifts. They are specially designed to store various length items – steel bars, pipes, tubes, furniture, packs of timber; as well as boards, metal sheets, crates and boxes, or white goods.

Additional arms, uprights and braces can be added as storage requirements change, while single- and double-sided configurations provide maximum storage capacity – be it on a single central column, or fitting tightly against a wall.

Please contact us for order enquiries and to find out more about cantilever!

# **Light and Medium Duty Cantilever**

The Light & Medium Duty Cantilevers are ideal if you're having to store long and difficult items such as steel bars, piping, tubes or timber. Storage is horizontal so you can handle things manually or by forklift.

#### **Features and Benefits**

- >> No limitation to products length
- >> Suited to interior installations
- >> Various arm lengths available
- >> Easily adjustable arm distances
- >> Fully modular, with extra sections available as you need them

All our Cantilever systems are totally bespoke systems, designed to order. Please contact us for order enquiries and to find out more about cantilever!

# **Heavy Duty Cantilever**

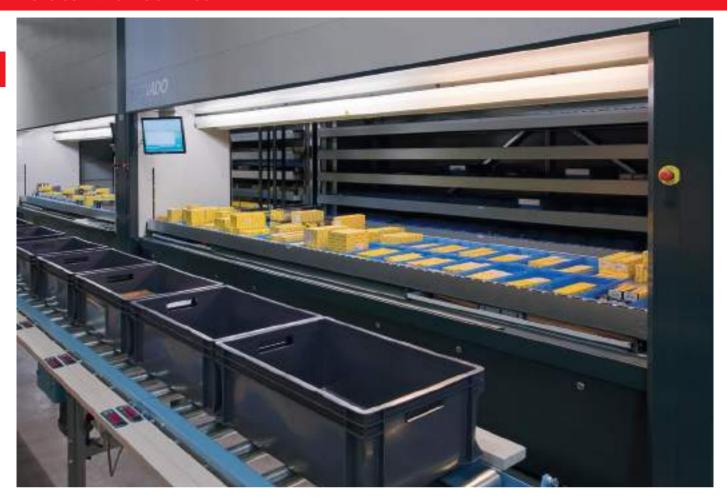

The Heavy Duty Cantilever is a versatile, modular system for storage of long or large goods. It's perfect for all types of warehousing environments, and with no front uprights obstructing load placing and retrieval, all levels are available to a forklift.

#### **Features and Benefits**

- >> Totally bespoke system according to user requirements
- Columns, bases and horizontal arms creating a complete structure
- >> Ideal for safe and efficient storage of long or large goods
- >> Maximises horizontal space
- >> Adjustable length and spacing between profiles
- >> Can also be installed on a MOVO heavy duty mobile trolley

# **Vertical Lift Machines**

Our automatic storage systems can save you up to 70% on existing floor space, reduce picking errors by up to 70% and decrease picking time by more than 60%.

Computer-controlled, the storage machines easily integrate with your existing warehouse management system, but also operate effectively as a standalone solution.

#### **Dimensions**

Volts: 400V 16A Width: 2500mm - 4250mm Height: 4000mm - 15,000mm Depth: 2100mm - 4200mm Tray load: 300kg / 400kg / 500kg

Please contact us for order enquiries and to find out more about the extensive range of safety features and accessories available!

So you want to maximise your cold and frozen goods storage warehouse efficiency whilst minimising its footprint and maintaining the right temperature?

Is product safety, sustainability and energy efficiency key to you?

Our high-density storage solutions allow you to:

Increase storage capacity • Save space • Cut costs • Operate down to -30 $^{\circ}$ 

**MOVO mobile pallet racking** can save 40% floor space, increasing storage capacity by 80%.

With our **drive-in racking**, you can store large quantities and save up to 90% space.

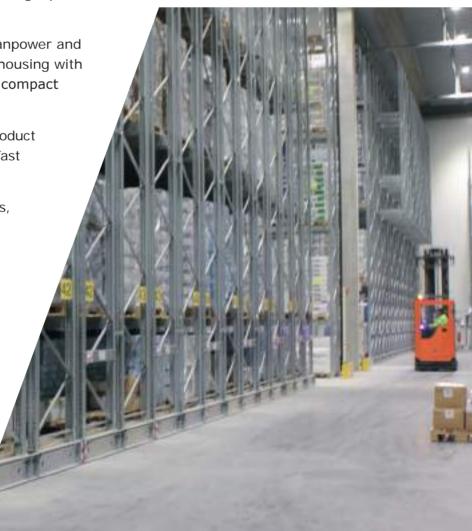

Our **pallet shuttle system** reduces manpower and the need for forklifts – perfect for warehousing with low SKU levels, needing an efficient yet compact storage system.

For cold storage warehouses with high product turnover, **pallet flow** solutions allow for fast access, using up to 60% less flow space.

With the help of our cold storage solutions, you'll have an efficient, sustainable cold storage operation.

And with the cold chain so essential for getting goods safely from producer to consumer, your efficient operation will help you play your part in combating climate change and tackling waste.

Contact us to find out how our solutions could benefit you!

#### Service and Maintenance

Guaranteeing ongoing safe operations means accepting your legal responsibility to ensure your storage products are regularly inspected and maintained. Our experienced teams are here to help.

Our expert teams of skilled service & maintenance inspectors can be by your side; carrying out any remedial work required and providing ongoing servicing and support of all our products within your facility.

You want to make sure your business is always operating at its safest and most efficient. We provide this assurance by:

- Offering a maintenance or service contract to your specific requirements
- Carrying out maintenance in line with your service plan
- Using certified service technicians
- Conducting systematic follow-ups of inspections and repairs
- Upgrading existing facilities with repairs or new technology
- Monitoring and followingup existing legislation, regulations & norms
- Training your staff in the use of our equipment

Contact us to find out more!

Dexion racking is manufactured to the highest quality and is designed to give you years of use. But racking can get damaged or misaligned, making it a danger to both your staff and your business.

The constant loading and unloading of pallets can compromise the strength, stability and integrity of any storage system which is why they need to be inspected regularly for signs of wear and tear.

#### Inspections can:

- >> Prevent damage to people or goods
- >> Extend the lifespan of the facilities
- Minimise future repair costs by discovering risks early
- >> Offer a speedy repair service

Regular Rack inspections are not only sound business practice, they are also a legal requirement. All companies are legally obliged to ensure their employees work in a safe environment with safe equipment.

Failure to comply can cause serious personal injury and even death of operatives, reduced productivity and lead to:

- Expensive and disruptive legal proceedings
- >> Higher insurance premiums
- >> Damage to reputation

Contact us to find out about our SARI rack inspections!

We offer the most convenient high density, high throughput AS/RS (Automated Storage & Retrieval Systems) solution for your warehouse, whether storing pallets or boxes.

Irrespective of the business size - small, medium or multinational companies - do not miss the chance to maximize competitiveness in the upcoming digital era by taking advantage of automation:

Obtain optimal use of floor space – get the most out of storage volume

Increase availability of goods

>> Decrease storage and picking error rates to the minimum

>> Minimize throughput times

Dexion is the perfect partner for our system integrators, thanks to a smooth and effective project management and execution. In addition, our racking and shelving offer the maximum flexibility to ensure perfect delivery:

Complete flexibility, from load capacity and building height, to cycle times and temperature control.

Ideal to handle pallets or boxes with every type of crane / shuttle.

From design to manufacture and installation, we provide in-house support, allocating our most experienced resources in the project execution.

Our engineering team always make sure that our systems meet the expectations by providing safe and full reliable systems with European standards.

Contact us to find out how our solutions could benefit you!

# **Bastion - Single Skin Partitions**

Heavy duty angle-framed industrial partitioning suitable for harsh environments. It provides secure storage & screening and can feature a combination of full steel, mesh & glazing. 25 x 25mm and expanded metal mesh inserts are also available upon request.

# Sigma - Single Skin Partitions

Demountable & relocatable medium duty partitioning, ideal for applications requiring a high quality appearance.

cleanroom & office applications where appearance is important. When used in conjunction with the correct HVAC system, Titan is ideal for working toward an ISO 14644-1 class 5 cleanroom environment

>>> RAL 9010 - other colours available upon request

>>> Flush double glazing with integral magnetic blinds, coved & bull nosed skirting

### **Bioplastic Shelf Bins**

### Why is bioplastic better for the environment than classic plastic?

When we use renewable raw materials such as wood, which absorbs CO2 during its life, at the end of the production process, more carbon dioxide can be retained than is released into the atmosphere during production. The end product can thus be carbon neutral or carbon negative.

- >> Reduce the environmental impact of industry
- Reduce the use of non-renewable resources
- Positively affect our planet's well-being

### HOW A TREE IS TRANSFORMED INTO AN INDUSTRIAL BIOPLASTIC STORAGE BIN

1. Source: Raw materials him sustainably managed forests.

2. Innovation: residues of wood and pulp production and cellulate fibres.

3. Production: Food-based production nateral replaced with new bioplasic material

4. Testing: Hard-core having of new products

5. Ready product: Ешу то геспруми. with a farest green calour and the brand BIOX

Small Parts Storage & Containers Secretary

### **Premium Attached Lid Containers**

- Wholesale & industrial applications
- » Designed for both automated & manual handling
- Lids are equipped with ribs which hold stacked containers securely
- Integrated lid accepts strapping & security seals
- The step design enables nearly vertical walls. This maximises volume & load capacity & saves space during transportation

### **Distribution Pallets**

- » Lightweight pallets are ideal for multi-trip logistic operations, making significant fuel savings over heavier pallets
- » Unlike timber pallets there are no splinters or metal fixings that could damage contents or injure personnel
- Eco Pallets when not in use, pallets nests by 62% of overall height for even greater savings on return transport. Do not harbour wood-born pests &, so, do not have to be treated for export. Also have a constant tare & do not absorb water or contaminants
- » Heavy Duty Pallets are ideal for heavier loads

Description	Overall Size L x W x H mm	Static Load Capacity kg	Dynamic Load Capacity kg	Model	Price

### **Hazardous Substance Storage Cupboards**

- » Manufactured from 0.7mm steel body & 0.9mm steel doors
- » These units enable separate storage of hazardous substances
- » "No Snag" handles with 2 point locking mechanism
- » Adjustable spill retaining shelves for superior spill management
- Integral liquid tight sump encourages the correct handling of spills (except wall mounted cupboards)
- » Wall cupboards are pre-drilled for mounting (fixings not included)
- Floor chests have an integrated welded sump, angled lid to discourage article placement & a hasp & staple lock - padlock not supplied
- » Stands raise cupboards by 543mm with an adjustable foot for uneven surfaces
- » Reaction to Fire Classification EN 13501-1

### **Hazardous Substance & CoSHH Security Cupboards**

It is vital that employers & employees comply with the control of hazardous substances in all working environments. This range of cupboards and cabinets enables the separate storage of hazardous substances as demanded by the CoSHH regulations. They are constructed from welded 1.5mm steel for strength combined with a superior anti-pick locking mechanism, to ensure security.

- Welded all steel structure for extra strength
- » Seven lever safe lock for high security
- » New regulation labels enclosed to be fitted by customer to suit regulations
- » Full length heavy duty hinges with concealed fixings to prevent forced entry
- » Adjustable spill-retaining galvanised shelves for superior spill management
- » Powder coated with Germ Guard Active Technology anti-bacterial paint
- Integral liquid-tight sump encourages the correct handling of spills through the use of absorbents
- » Reaction to Fire Classification EN 13501-1

### Safety Cabinets for Flammable Substances

- Exceed the requirements of HSG51, 2015 (HSE Storage of Flammable Liquids in Containers, 3rd Edition)
- Meets the requirements of HSG140, 2015 (HSE Safe Use & Handling of Flammable Liquids, 2nd Edition)
- » 10 minute fire tested at up to 1,300°C (independent testing)
- Internal temperature during fire test kept below the auto ignition temperature of vast majority of flammable liquids
- Can help justify storage of more volume of flammable liquids than HSG51 would normally allow
- Fully load tested
- Self-closing models have fusible links that close the doors at 74°C
- » Dual wall construction with insulating air space
- » Fully welded construction with 1mm steel used throughout
- 3 point heavy duty stainless bullet self-latching doors – positive door closure without manual rotation to ensure latching
- » Leak proof integrated sump & 2 air vents with flame arresters built-in

- Concealed self-close mechanism release doors on self-closing models from any open position & the door will shut & latch
- Adjustable shelf positions on 76mm centres, each with 156kg UDL rating
- » Continuous piano hinges on doors
- » Shelves direct leaks to back & bottom of cabinet
- » Adjustable levelling feet
- » Built in grounding connector

## secexports torage, Security Cages & Hazardous

### Storage Vaults

- » Designed to comply with the Flammable Liquid Storage Regulations (1972) as appropriate & the Factory Inspection Guide HSG51
- » Adjustable vent meets the requirements of both flammable storage (vents closed) & agrochemicals (vents open)
- » All welded units conforming to the A.P.E.A. construction requirements
- Provide a half hour protection from collapse & the passage of flame
- Multi-lockable for high security & fitted with a lift up action lid assisted by gas struts
- For extra protection & fork lifting the units have skids on the base
- Middle shelves pivot on models SSV01Z & SSV02Z to enable larger items to be stored on the base level
- » Model SSV03Z has a central partition & four shelves - the two middle shelves fold away & the two top shelves are made in 3 sections the back section is fixed in position & the front two sections removable
- All models have a liquid-tight base to contain spillage
  - N.B. A Fork Lift will be needed to unload these vaults

### **SAFETY NOTE**

Before storage of herbicides & petroleum based products takes place the advice of the following should be sought for specific guidance.

- » Health & Safety Inspector

# **Galvanised Secure Stores**

- Side & roof panels are manufactured from 0.6mm cold rolled corrugated galvanised steel & for additional strength the unit has a structural frame which is fitted at each end & at the centre of the unit
- The sump is manufactured from 2mm structural grade galvanised steel & is fitted with base plinths to keep the underside of the units out of contact with the ground
- The double doors, fitted with 3 upper & 3 lower vents in each door, are located on one of the short sides of the unit & are secured with a Kale mortis lock with cylinder (152R)
- Complete with two sets of shelves (60kg shelf U.D.L.) on each of the long sides of the unit
- Fork lifting pockets are underneath the units

This unit will be delivered by an articulated vehicle, therefore please ensure that a vehicle of this size can access your premises before ordering and advise us accordingly. You will require an appropriate size-capacity fork lift truck or Hiab unit to offload this item from the delivery vehicle. IMPORTANT: our standard delivery doesn't include any offloading due to insurance restrictions - if you require this service then please call for details. The unit must be positioned on a solid level surface, ideally concrete of circa 150mm in depth and 100mm bigger overall than the unit. The purpose of this is to ensure the unit does not settle unevenly when placed in position.

# **Troax Cage**

Troax Cage is a quick and easy theft deterrent, suitable for warehouses or on construction sites. It has a flexible and modular construction, and all depths are possible from 1200mm up to the infinity. Also the depth can be extended as and when needed using additional modular panels and brackets. The unique design of the hinge enables a 270 degrees opening of both doors.

# secexports

# **PVC Strip Curtains**

- » Bespoke-made curtains to fit any location & opening
- » Light to heavy duty use
- » Ambient or freezer grade
- » Pedestrian & forklift friendly
- » Supplied ready to hang

# (i) Information

DESPATCHED WITHIN 2/3 DAYS OF ORDERING

- » High quality clear PVC
- » DOP & DEHP free

- $\rightarrow$  Flexible -15°C to +50°C (polar to -25°C)
- » UV stabilisers & high impact resistance

## Swivel-hinge

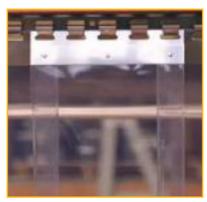

For heavy & frequent use by forklifts. Strips bolted into hinges so they can't be pulled down.

- Strip widths: 300 & 400mm
- » Strip thickness:
  3 & 4mm
- » Overlap options: Min & Max

#### Hook-on

For pedestrian, pallet truck & occasional forklift use. Available in galvanised or stainless steel.

- » Strip widths: 200, 300 & 400mm
- Strip thickness:
  2, 3 & 4mm
- Overlap options: Min, Med & Max

## **Quickmount** ™

For pedestrian areas where safety is key. No steel plates, so no one can be hurt if strips are dislodged.

- » Strip widths: 200, 300 & 400mm
- » Strip thickness:
  2, 3 & 4mm
- » Overlap options: Min, Med & Max

PVC in standard grade, polar grade, double ribbed & anti-UV

#### Orthomat® Ultimate

- The mat is encapsulated in revolutionary PolyNit material that is resilient to most oils & chemicals found in engineering
- Soft foam centre layer creates a very comfortable surface to reduce tiredness & health issues associated with prolonged standing
- » Raised diamond surface provides additional underfoot grip for enhanced safety
- Fire test classification to BS EN 13501-1:2018 CFL s1
- » Thickness: 10mm

Overall Size L x W mm	Model	Price
600 x 900	OU010001	£63.69
900 x 1500	OU010002	£150.66
900 x 18,300	OU010003	£1533.03
900 x Linear Metre	OU010003C	£94.60

#### Solid & Open Fatigue Step

- » Premium quality anti-fatigue tiles
- » Available with solid surface or holes for drainage
- » Tiles interlink to provide coverage for any area size
- » Suitable for wet or dry environments
- » Optional extras male & female bevelled edges in black or yellow tiles colour black
- » Thickness: 19mm

Overall Size	Solid Fatigue Step		Open Fatigue Step	
L x W mm	Model	Price	Model	Price

900 x 6000	DP-0906	£1025.76	SD-0704	£1119.66

#### **Cobamat Standard**

- » Fights against operator fatigue
- » Slip tested to EN13501-1:2018 EFL s2
- » Flame retardant to DIN 51130:2014 R10
- » Offers slip resistance in both directions

» Colours: red, black, green or blue

Thickness: 12mmHole size: 22 x 22mm

Overall Size L x W mm	Model	Price
600 x 10,000	CS-0610	£548.38
900 x 10,000	CS-0910	£822.63
1200 x 10,000	CS-1210	£1096.78
Edging per linear metre	XS01	£10.58

#### Cobamat Inter

- » Easy to clean with detergent & a pressure cleaner
- » Gives added cross grip in wet/oily areas
- » Ideal for heavy duty applications
- » Colours: red, black, green or blue
- » Thickness: 12mm
- » Hole size: 30 x 10mm

Overall Size L x W mm Model		Price
600 x 10,000	CE-0610	£676.08
900 x 10,000	CE-0910	£1013.96
1200 x 10,000	CE-1210	£1352.18
Edging per linear metre	XE02	£10.58

#### **Workstation Mat**

- » Supplied with yellow bevelled edge
- » Cross ribbed to help prevent slipping in wet areas
- » Ideal as a machine operatives mat
- » Slip tested to EN13501-1:2018 EFL s2
- Flame retardant to DIN 51130:2014 R10
- » Good resistance to the majority of oils & chemicals
- Thickness: 12mm

Overall Size L x W mm	Model	Price
600 x 1200 - Standard (22 x 22mm Hole Size)	WS-0701	£111.86
1000 x 1500 - Standard (22 x 22mm Hole Size)	WS-0702	£210.23
1200 x 1800 - Standard (22 x 22mm Hole Size)	WS-0703	£287.88
600 x 1200 - Heavy Duty (22 x 10mm Hole Size)	WD-0701	£167.65
1000 x 1500 - Heavy Duty (22 x 10mm Hole Size)	WD-0702	£310.38
1200 x 1800 - Heavy Duty (22 x 10mm Hole Size)	WD-0703	£425.56

#### Worksafe Mat

- » Manufactured from hard wearing rubber
- » Ideally suited to relieve operator fatigue
- » Bevelled edges help prevent trips over the mat
- Unique underside design prevents the mat from slipping on the floor

Overall Size L x W mm	Model	Price
900 x 1500 - Black	SW-0001	£168.44
900 x 1500 - Blue (grease/oil resistant)	SW-0002	£221.04

#### **Entraplush**

- » Traps dirt & debris protecting internal floors
- » Quick drying 'crush-resistant' carpet surface
- » Slip resistant, stain resistant with PVC backing
- » Colours: grey, brown, blue or red

Overall Size L x W mm	Model	Price
600 x 900	PP-0001	£22.55
900 x 1500	PP-0002	£56.87
1200 x 1800	PP-0003	£89.97

#### Microfibre Doormat

- Exceptional multi-action entrance mat using hygienic microfibre technology
- » Superior 'brushing & wiping' with 'rapid dry' properties even out performs cotton
- Flexible, ultra-fine fibres provide deep cleaning action on passing footwear
- » Filament structure creates a capillary effect for improved dirt retention/absorbency
- Environmentally friendly does not require chemical pre-treatment or washing detergents
- » Colours: beige or black

Overall Size L x W mm	Model	Price
600 x 900	MF-0001	£47.81
900 x 1500	MF-0002	£104.12

#### Coba Wash

- » Machine washable mat
- » Traps up to 90% of tracked-in dirt
- » Traps moisture, grit & grease
- » Bleach & fade resistant 11 year warranty
- » Non-slip nitrile rubber backing
- » Colours: black/blue, black/steel, black/brown or black/red

Overall Size L x W mm	Model	Price
600 x 850	LM-0201	£55.63
850 x 1200	LM-0204	£111.19
850 x 1500	LM-0202	£132.37
1150 x 1750	LM-0203	£211.11

#### **Superdry Doormat**

- » Heavy duty entrance matting, ideal for office spaces & general workplaces
- » Raised, reinforced 'waffle' pattern scrapes dirt away from footwear, helping to reduce the amount of dirt/debris brought into the building
- Exceptional moisture wiping properties (able to retain up to 5.4 litres water/m2)
- Lipped edges to help reduce tripping hazards
   & rubber backing for slip-resistance
- » Colours: Black, Blue, Red, Brown or Grey

Overall Size L x W mm	Model	Price
600 x 900	WH0001	£45.83
900 x 1500	WH0003	£114.54
1200 x 1800	WH0004	£180.96

#### Cobascrape

- » Hard wearing surface scrapes dirt from your shoes
- » Gives a sure footing grip in wet/oily conditions
- » Bevelled edges to help prevent trips
- » Manufactured from 100% nitrile
- » Ideal for all weather conditions
- » Machine washable
- » Colour: Black

Overall Size L x W mm	Model	Price
850 x 750	CS-0001	£80.83
850 x 1400	CS-0002	£150.51
850 x 3000	CS-0003	£321.08
1100 x 1700	CS-0004	£246.30

#### **Ringmat Octomat**

- » Manufactured from hard wearing rubber matting for a long life span even in demanding conditions
- Conforms to EN-13552 Category R10
- » Connectors available for a larger area coverage
- » Colour: Black

Overall Size L x W mm	Model	Price
1000 x 1500	RM-0003	£112.35
Connector	RM-0004	£2.63

#### Rampmat

- » Manufactured from durable NBR rubber making this popular doormat suitable for most climates
- » Superior slip resistance conforming to Slip Resistance Test EN-13552 Category R10
- » Raised circular pattern surface provides grip while scraping dirt & moisture
- » Moulded bevelled edging for safety & wheeled access
- » Thickness: 10mm

Overall Size L x W mm	Model	Price
1200 x 800	RP010002	£32.08
1500 x 900	RP010001	£41.82

#### Superdry Heavy Traffic Mat

- Waffle pattern absorbs moisture & scrapes away dirt from forklift wheels
- » Reduces slips, forklift skidding & loss of control
- Easy to install with \*Double Sided Adhesive Tape
- Mats can be installed individually or laid next to each other to cover vast areas
- » Easy to clean with a vacuum or stiff brush
- » Protects floor from damages
- » Thickness: 10mm

	Overall Size L x W mm	Model	Price		
Superdry Heavy Traffic Mat					
	1800 x 1150	WHT010005	£152.25

#### CablePRO Mat

- » Special mat for protection from tripping hazards due to loose cables lying around
- » Extremely durable nylon surface in dappled colour shades
- » Cleated non-slip backing made from durable nitrile rubber
- » Integrated cable run underneath the mat
- » Edge in hazard stripe
- » Product height: approx. 11.4 mm
- 2 year warranty when professionally maintained

Overall Size L x W mm	Model	Price
1200 x 400	CPM010701	£69.47

#### **ProSolve ProWipes**

- These big wipes are lint free, strong & absorbent great for removing even the heaviest deposits of grease & grime
- » ProSolve ProWipes clean hands, tools & hard surfaces without water or scrubbing, removing oil, grease, sealants, paint & dirt
- » Powerful anti-bacterial performance against MRSA, e-Coli & salmonella
- The unique three layered laminate fabric offers greater tear resistance & improved absorbency, in addition to torsional strength in both directions

Contents	Model	Price
90 Wipes	PWT	£5.67

#### **ProSolve Hazard Tape**

- » ProSolve Hazard Tape is a durable self-adhesive PVC warning tape for floor & hazard marking
- » Suitable for application on most smooth, dust & grease free substrates including plastic & wood, painted/coated floors etc.
- » Can also be used as an insulation tape
- » Size: 50mm wide x 33m length

Colour	Model	Price
Black & Yellow	SAFTB/Y2"	£4.00
Red & White	SAFTR/W2"	£4.00

#### **ProSolve Barrier Tape**

- » ProSolve Barrier Tape is a non-adhesive economy tape designed for marking out-of-bound & hazardous areas
- » Size: 70mm wide x 500m length

Colour	Model	Price
Red & White	BTR/W	£7.73

#### **ProSolve Anti-Slip Tape**

- ProSolve Anti-slip self-adhesive safety grip tape is of high quality, suitable for indoor & outdoor use
- Can be applied to most surfaces & will instantly provide anti-slip protection that meets safety requirements
- The tape features a pressure sensitive permanent adhesive coating & resin bonded oxide grit applied to a durable & long-lasting flexible backing
- Can be applied to concrete, wood, metal & previously painted surfaces
- » It can be cut easily with scissors & is ideal for stair treads, walkways, ladders & many other applications
- » Size: 50mm wide x 20m length

Colour	Model	Price
Black	AST50BLA	£24.33
Black & Yellow	AST50B/Y	£24.33

#### **ProSolve Line Marker**

- » ProSolve Line Marker Paint is a superior, fast drying & hard wearing acryclic line marking paint which is a lead & xylene-free formulation
- » Produces clean & sharp lines & fits many applicators
- » Excellent line marker for grass, concrete, tarmac, wood & composites

## Traffic Line Heavy Duty Pallet Racking Protectors

- Conform to DIN 4844 safety guidelines
- » Provide protection from vulnerable frame ends & uprights
- » Made in steel & powder coated yellow with black bands
- Can effectively be used to protect machines, partitioning, mezzanine support columns, concrete columns etc
- » Right angle for corner protection (bolted on 2 sides)
- » U-Profile for three sided protection (bolted on 3 sides)
- » Superior high strength & build quality

Shock absorbing pad enables the posts & bollards to deflect by up to 10°. This allows the railing system to absorb shocks & impacts whilst damage is reduced significantly. The pad is UV, weather/temperature resistant & increases the height of the railing system by 40mm (installed by the use of 4 chemical anchor bolts per post/bollard)

#### **BRANDSAFE® Armco Fishtail Safety Ends**

- Provides a safe & visual termination to Armco rails
- Retrofit compatibility with all Armco terminals
- Flexible under impact offers low damage to vehicles
- Fitted with diamond grade reflectors

#### Protect-It

#### Does your warehouse meet HSE requirements?

HSE document HSG76 states: 'Where racking is likely to be struck by lift trucks & other vehicles it should be protected'

If you are going to conform to HSE requirements make sure you fit a protector that meets the recognised European Standard FEM 10.2.02.

- Passes both front/side impact tests to conform to FEM 10.2.02
- » Deflects in the same way as a car bumper to absorb impacts
- Easy to fit by hand no tools required
- Easy to remove for rack inspections
- » Effective in cold stores as low as -40°C
- Sold in over 70 countries throughout the world

Please specify type of racking if known when ordering or send a photo of the racking Free delivery on orders over £250.00. For orders less than this please add £25.00 per order.

Protection Height	Uprights upto 90mm	Uprights between 90mm x 120mm wide
268mm	£18.55	£19.69
400mm	£27.45	£31.85

#### Protect-It MAXI

Protect-it *MAXI* is a revolutionary structural column guard designed to minimize damage to building columns especially suited to mezzanine floor columns

- Fits any column size beginning with 100mm (4") & increasing in 25mm (1") increments to fit any size & shape including square, rectangular, 'H' section, 'I' section, round or even walls
- » Slim line construction saves space. Only adds 75mm to each side of the column
- Provides even impact absorption from all directions
- » Improves workplace safety
- » Securely fits around columns
- Tested to withstand a 2.7 tonne fork lift truck hitting a 200mm column at 6km/hour - no damage to the column occurred

Free delivery on orders over £250.00. For orders less than this please add £25.00 per order.

#### **Surface Mounted Flow Plates**

DON'T BE FOOLED BY FAKE, this original patented design is and has been UK Manufactured for over 25 Years. The Surface Mounted Flow Plate has been designed to offer advantages over the sunken design. This product is strong enough to withstand the heaviest goods vehicle, or with the flap reduced to 115mm, will provide the strength and flexibility to allow all types of vehicles (standard design maximum weight 1 tonne per axle) to travel over them. Another advantage these plates offer is eliminating the problem of piercing roadway surfaces, no more digging holes as these simply bolt down to the surface providing an easy yet effective traffic control solution.

Description	Model	Price
Standard Flow Plate (up to 1 tonne per axle)	SB14S	£220.96
HGV Flow Plate	SB14 HGV	£405.43
Standard Locking Bar	-	£27.64
HGV Locking Bar	-	£32.25
Fixings (each)	-	£2.12

#### **Height Restriction Barriers**

- Strong and sturdy design perfect for car parks or anywhere similar
- » Manufactured from 100mm Steel Box Section
- » Fixed & opening designs
- » Bolt down (up to 7m only) or concrete in (recommended)
- Manufactured to suit your width requirements. E.g. If 5.5m is required order a 6m & specify bespoke size on your order
- 2.1 Metre height restriction is standard. However, 1.9m, 2.0
   2.3m is available. Alternative heights will require a quotation.
- » Latch back posts are recommended extra
- » "Maximum Height" Nudge bar is recommended extra
- Available Powder coated or Galvanised Double Finish (both) is also available extra cost.
- » Low level locking available upon request

### **Hook Kits**

# Lift-up Wall Cupboard

- Sturdy lockable wall cabinets with lift up door for secure storage
- Fully welded construction with perfo or louvre backpanels
- The double skinned doors provide extra storage area & are secured by 2-point locking
- » Hooks & accessories not included

Backpanel Type	Overall Size W x D x H mm	Model	Price
Perfo	800 x 325 x 700	40031088.19V	£437.60
Perfo	1050 x 325 x 700	40031085.19V	£525.05

# Drum, Cylinder & Spill Control

# **Drum Dolly**

- » Design allows loading by overhead lifting
- » Suitable for moving standard 210L drums

Overall Size Dia. mm	Weight kg	Model	Price
616	7.5	DID16Y	£119.10

### **Drum Stands for 210 Litre Drums**

- Fully welded tubular steel construction for strength & durability
- Model DH443Z: with nylon top rollers to allow drainage from the side bung
- Models DH442S & DH445S: mobile on 2 x 100mm fixed wheels & 2 x 75mm swivel castors
- Model DH445S: as per DH442S but with nylon top rollers to allow drainage from the side bung

Description	Overall Size L x W x H mm	Height Under Side of Drum mm	Roller Dia. mm	Weight kg	Model	Price
Static	865 x 595 x 350	280	-	5.4	DH440Z	£190.20

Drun	Drum Handle Lever - Designed for use with the above stands					£114.65

# **Drum Dolly**

- » Design allows loading by overhead lifting
- » Quick & easy assembly
- » DID09Y handle height: 750mm. Suitable for moving standard 210 litre drums
- Fitted with 4 x 75mm polyethylene swivel castors.

10

DID09Y

£122.75

615 x 615

### **Drum Transporter**

# **Drum Handler**

- » U shaped handle which
- » Drum is held in position by an adjustable hook
- Designed to carry 210 Litre steel drums
- Mobile on 2 x 250mm solid rubber wheels & features a third supporting 125mm braked solid rubber castor

Overall Size L x W x H mm	Weight kg	Model	Price
1550 v 680 v 880	21	DH140V	£320 60

- Eagle grip ensures drum stays in place when being transported, the mechanism can also easily be adjusted for varying drum heights
- » Suitable for use with 210L steel drums
- » Mobile on 2 x 400mm pnuematic wheels, perfect for traversing rough ground

Overall Size Weight L x W x H mm kg		Model	Price
1600 x 800 x 880	30	DH145Y	£376.15

- » Looped ergonomic handle
- Large toe prongs to allow drum off loading onto a pallet and loading from a pallet
- Cradle design allows the unit to be used in a horizontal manner for dispensing drum contents
- 45° design allows the unit to take the full weight of the drum whilst transporting
- Suitable for use with a 210L steel & certain plastic drums
- » Mobile on 4 x 200mm nylon wheels

Overall Size in Mobile Position - L x W x H mm	Weight kg	Model	Price
1300 x 565 x 950	21	DT350Y	£400.90

- » Cradle system, allows the drum to be loaded in a horizontal position
- Loading handles allow for easy tipping & drainage
- Suitable for use with 210L steel & certain plastic drums
- Mobile on 2 x 125mm wheels & 2 x 100mm white nylon castors

Overall Size L x W x H mm	3		Price
1200 x 400 x 451	17	DC270Y	£275.95

# **Hydraulic Drum Lifter**

- » Designed to allow you to pick up & transport full or empty 210 litre steel & plastic drums
- » Hydraulic pump smoothly lifts the drum, held firm by the top rim clamp
- The retractable clamp holds the drum securely & releases automatically
- » Mobile on 2 x 180mm polyurethane wheels & a rear 125mm swivel polyurethane castor

DL388Y

£507.95

L x W x H mm 820 x 800 x 1050

DT300P

£617.50

### **Drum Tilter**

- » Designed to allow you to pick up, transport & rotate full or empty 210L steel drums
- » The saddle secures the drum
- » Mobile on 2 x 180mm polyurethane wheels & a rear 75mm swivel castor

Overall Size L x W x H mm	3		Price
921 x 870 x 1676	50	DT300P	£617.50

### **Drum Handler**

» Designed to carry full or empty 210 litre steel drums

This unit smoothly lifts the drum (in 20mm increments) which is held firm by the clamp

» Mobile on 2 fixed 130mm polyurethane wheels & 2 swivel 120mm polyurethane castors

» Lifting height: 250mm

### Fork Lift Drum Tilter

- » CE marked & plated
- » Can be operated without leaving the fork lift truck
- » Enables your fork truck to be used as a drum handler
- Can easily lift, transport & tilt loaded drums

The 3 metre pull chain loop allows simple control from the driver seat

Overall Size L x W x H mm	Weight kg	Model	Price
1000 x 770 x 510	76	DLF05Z	£848.75

DLV02Z

### **Drum Lifters**

- » One person operation
- » CE marked & plated

» Simply attach/hang the lifter on a hook from an overhead hoist or crane, saddle around the drum & raise to the desired height & position

» For use with 210 litre steel drums

» Model DLV02Z has a geared chain control. The 3 metre control chain can be locked to secure the drum in any position during transit & dispensing

# Taper Grip Drum Clamp

- » CE marked & plated
- » Suitable for use with 210 Litre steel drums
- The steel jaws grip the rim of the drum, allowing the drums to be to be picked up or set down without spaces between them
- » Automatic grip lock will not open & ensures safe drum transportation
- » Grip head has different positions to fit different heights

N.B. It is important for the safe use of this unit that the drum ring is not damaged & is strong enough to support its own weight

### **Leak Diverters**

- » Redirect roof or pipe leaks to prevent water damage
- Deal with your nuisance ceiling leaks without disruption to the workplace until a permanent repair can be made. This device can be hung from the roof directly under leaks to catch rainwater & divert it to a convenient collection point, keeping it off the floor, reducing the potential for slips & falls whilst minimising damage to goods & machinery.
- » Adjustable hanging straps (not included) ensure easy levelling & positioning - call for details. Standard UK Hozelock fittings ensure water can be safely channelled into a suitable receptacle or other convenient area
- » Can be connected to a garden hose not included

490 Litres	1645 x 1360 x 1900	175	DH274Z	£2335.50	

#### **Drum Storage Units**

- » Ground clearance: 150mm
- » Fork centres: 760mm
- » Heavy duty drum storage units of fully welded construction
- » Safe storage for 8, 10, 16 or 20 standard 210 litre drums, either palletised or loose loaded
- » The 8 & 10 drum units are single tier & the 16 & 20 drum units are double tier
- » Swaged & re-inforced robust sheet steel walls on 3 sides
- » The sump units can be removed for steam cleaning & have removable galvanised grid floor panels
- » Fork guides ensure safe & secure movement
- Blue powder coated finish N.B. A Forklift will be needed to unload these units.

#### **Drum & IBC Secure Stores**

- » Base is manufactured from 3mm mild steel with RHS cross members & pressed ribs
- » Corner posts, shelf frames & main rails are rolled hollow section
- The roof is pressed with suitable bracing & fully welded around the perimeter, while the back, side & door panels are pressed from 2mm mild steel sheet & corrugated where required
- » Fitted with crane lifting points (maximum 2000kg per lift point) & sliding doors
- The floor area above the sump is covered with galvanised steel channel sections so that loose drums or pallets can be stored directly onto it, whilst the upper shelf is an open box section which is designed to support pallets. Grid mesh shelving is available - please call for details
- » Shot blasted before being painted (RAL 6029) for greater durability
- » EDRIB9624 push back system above the sump, allowing the units to be pushed to the back of the units

#### **Drum & IBC Secure Stores**

This unit will be delivered by an articulated vehicle, therefore please ensure that a vehicle of this size can access your premises before ordering and advise us accordingly. You will require an appropriate size-capacity fork lift truck or Hiab unit to offload this item from the delivery vehicle. IMPORTANT: our standard delivery doesn't include any offloading due to insurance restrictions - if you require this service then please call for details. The unit must be positioned on a solid level surface, ideally concrete of circa 150mm in depth and 100mm bigger overall than the unit. The purpose of this is to ensure the unit does not settle unevenly when placed in position.

289

#### **Grenadier® Heavy Duty Security Cages**

- » Fully assembled units constructed from steel angle & 25 x 25mm weld mesh
- » Units are load tested
- » Units have a padlock facility (padlock not supplied)
- » Cranage eyes for easy lifting (when lifting using the Cranage eyes, we recommend using a spreader)
- » A hazardous chemical sign is available as a factory fitted optional extra
- » Mobile units are fitted with 4 x 100mm nylon, 2 braked swivel castors (N.B add 115mm to the height)
- » Two finishes available: powder coated yellow or galvanised body with powder coated yellow doors

N.B. A Fork Lift will be needed to unload these units

#### **Propane Cylinder Trolleys**

Tubular steel powder coated trucks designed to safely manoeuvre 47kg propane cylinders

» The max diameter of cradle supports is 380mm

» Model CT103L is able to carry one 380mm cylinder & one 230mm cylinder

» Models CT102L & CT103L are fitted with a rear castor which supports the laden trolley enabling full operator control when manoeuvring

» CT101L & CT102L come with puncture proof front wheels

Cylinder Trolleys

570 x 550 x 1310

730 x 530 x 1310

920 x 810 x 1440

» Models TS177L & CT277L are designed to carry a maximum cylinder size of 286mm dia x 1575mm height. Tubular steel frame fitted with two 125mm rubber tyred rear support castors & 250mm puncture proof pneumatic front wheels

#### **Fully Powered Stackers**

- Conform to EN 1757-1
- CE marked & plated
- » Turning radius: 1485mm
- » Battery voltage: 2 x 12/85 V/Ah powerful maintenance free batteries (large 2 x 12/106 V/ah are available - call for details)
- » Built in charger as standard, together with battery discharge indicator with automatic lift cut off function, ensure high battery lifetime
- » Fully powered stacker, with duplex mast lifting, that provide smooth travel & lift with easy to operate controls
- High quality hydraulic pump ensures very little noise, maximum efficiency, durability & shortens the lifting time

Compact & ergonomic design

### **Fully Powered Counterbalance Stackers**

- Conform to EN 1757-1
- Duplex mast configuration allows good sight through the mast uprights
- Short wheel base, compact & low noise
- » Adjustable fork spread to handle all pallet types
- » Uses latest AC control technology for superior control & battery life
- External battery charger means that the truck can be charged from any convenient UK 3-pin socket
- Heavy duty traction battery for 8 to 9 hours continuous work
- Smooth step less drive controls
- » Power steering & full free lift
- » Can pick up closed board pallets, standard UK pallets & Euro pallets

# 'Super Strength®' Plastic Multi Purpose Trolleys

- » Strong polyethylene moulded trolleys
- » Easy to clean will not rust, dent or chip
- » Ideal for workshops, storerooms, warehouses, automotive, electronics, chemical & pharmaceutical industries
- » Manufactured from a non conductive polyethylene which will not pass an electrical current & is unaffected by battery acid, solvents & cleaning solutions
- » Models GI237L & GI337L have a higher load capacity as the shelves are re-inforced with a steel bar
- » Mobile on 4 x 100mm non-marking rubber swivel castors, 2 with brakes

**Shelf Trolleys** 

Super strong polyethylene moulded

trolleys - will not rust, dent or chip

Constructed from a non conductive

material - resistant to most substances » 4 x 100mm rubber swivel castors, 2 with brakes

# **Shelf Trolleys**

- Super strong polyethylene moulded trolleys will not rust, dent or chip. These easy to manoeuvre units are ideal for use in many different environments
- Constructed from a non conductive material - resistant to most substances
- Mobile on 4 x 100mm rubber swivel

### REACH COMPLIANT WHEELS

REACH (Registration, Evaluation, Authorisation & Restriction of Chemicals) is a European regulation that addresses the production & use of chemical substances, & their potential impacts on both human health & the environment

# Turntable, General Purpose & Ackerman Trucks

# Tip-A-Trucks

- » Unique tipping action the trucks easily tip when lifted to make it easier to dispense the contents
- » Large wheels give these units a smooth ride over rough & uneven terrain
- The easy to clean polyethylene body is supported by a strong & durable steel frame

# UNIQUE TIPPING ACTION

As the unit is tipped, the wheels slide to the middle of the unit, giving you a greater degree of stability when emptying

Locking mechanism keeps the easy clean Polyethylene body from tipping, controlled by an easy release mechanism

# 'ProPlaz®' Clever Folding Trolley

- » Load capacity: 25kg on top tray 45kg on bottom tray
- » Manufactured to the recognised European GS standard
- » Manufactured from injection moulded plastic & anodised aluminium
- Folding boxes are stackable & are kept securely in place by male & female connectors
- » Folding box has a capacity of 46 litres
- » Folding boxes can be stacked up to 4 high
- » Folded size: 670H x 470W x 110D mm

Brake Mechanism

Box Fixing Mechanism

Folding Box Male & Female Connectors

Unclip the wheels from the base & clip into the frame of the unit. Push the blue button on the handle & lift up to open the unit. Then simply strap the box into the top tray using the Safety Straps & you're ready to go.... The unit even has a foot operated brake between the rear wheels.

#### Telescopic Container/Trailer Conveyor - (for use over a level loading dock)

The Telescopic Expressway has been developed as a cost effective solution for efficient loading & unloading of shipping containers & trailers over a level loading dock. High impact, low inertia, 50mm diameter PVC rollers mounted in fully welded, powder coated steel channel frames. 50mm bright zinc plated mild steel rollers at load point & 20mm diameter bright zinc plated mild steel rollers at deck transfer sections. Each deck height adjustable by screw jacks. Alternative widths & lengths available on request.

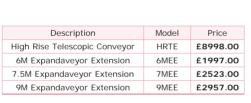

Description	Model	Price
600mm Wide x 12M Extended (5M Closed)	TE4-600-3-12.0	£4963.00
600mm Wide x 16M Extended (5.5M Closed)	TE4-600-4-16.0	£6492.00

#### Container/Trailer Conveyor - (where no loading dock available)

The High Rise Telescopic conveyor has been developed as a safe, efficient & cost effective solution for quickly unloading shipping containers or trailers where no level loading dock is available. 600mm wide the conveyor will extend up to 10m inside the shipping container or trailer & will convey cartons under gravity to an offload point at ground level. The conveyor can be further extended by connecting an Expandaveyor, please see opposite page for specification. Suitable for container floor heights of 1,300-1,650mm (height options from 250-1,700mm available on request)

#### **Medium Duty Belt Conveyors**

Motorised drum drive belt conveyor ideal for warehousing & light industrial use. Smooth faced anti-static PVC belt, supplied with variable speed controller with forward & reverse function. Rated at 30kg per running metre uniformly distributed load. Runs from a 230V (single phase) supply.

A complete range of belt conveyors, including inclined, mezzanine floor & vehicle loading conveyors available on request.

#### **Expanding Conveyors**

- Versatile mobile conveyor system which improves productivity & reduces manual handling - ideal for warehouse & industrial applications
- Extends to suit changing applications & closes for efficient storage
- Can be stretched around corners
- High impact PVC Skatewheel & roller models available
- Height adjustable from 650 to 1100mm
- Supplied as standard with handles & 100mm swivel braked castors
- Rated at 80kg per metre
- » Axle pitch when fully extended 125mm
- » All steelwork protected with a bright zinc plated finish
- Options include end stops & hooks to connect multiple conveyors

#### Available on request

- Bright zinc plated steel roller & skatewheel models
   Height ranges of 450-700mm or 900-1200mm
- Heavy duty models
- » Different lengths & widths
- Roller end stops

#### Telescopic Ladder with Stabiliser Bar

#### Certified to EN 131 standard

- >> To open the unit lift from any step dependent on the height you are trying to achieve. The step can be adjusted all in one go or step by step to suit your requirements
- Folds quickly & easily for compact storage
- >> Controlled retraction to guard against trapped fingers
- >> One time release locking mechanism
- Manufactured in strong aluminium
- >> For safe use, do not stand on or above the red rung

Folds quickly & easily for compact storage. Simply push the buttons to close. The unit has a flange in the legs which restricts air flow and therefore gives controlled retraction to compact the unit smoothly from 3810mm extended height to 910mm closed height

#### **Ladder Log Inspection Systems**

The Ladder Log Inspection System is a simple & straightforward process to ensure you are complying with the work at height regulations of 2005. Carry out a full inspection of your ladder every 3 to 6 months, file the paperwork & give the user a visual sign the equipment is safe to use.

The range consists of reversible tags slotted into holders or a self-adhesive plastic sticker. Both variations of this tag enable the user to record their asset reference alongside the date & time it was last inspected, as well as the name of the competent person who inspected the ladder.

Description	Model	Price (each) 0-49 off	Price (each) 50-250 off	Price (each) 251+ off
Reversible Tag	LLRT01	£1.25	£1.00	£0.88
Tag Holder	LLTH02	£2.73	£2.22	£2.05
Green Sticker	LLGS03	£2.06	£1.63	£1.38
Red Sticker	LLRS04	£2.06	£1.63	£1.38

#### **Ladder Log Inspection Systems**

The Ladder Log Business pack is perfect for getting started with ladder inspections if you haven't already got a system in place. It comes with tags and holders, or stickers if you prefer alongside an A4 register and all the paperwork required to make recording inspections as straightforward as possible. All business packs come with an A4 Inspection Folder & indelible marker pen.

Description	Model	Price (each)
Inspection Folder, 10 Tags, 5 Holders & 1 Pen	LLBPS05	£58.93
Inspection Folder, 30 Tags, 15 Holders & 1 Pen	LLBPM06	£80.36
Inspection Folder, 50 Tags, 25 Holders & 1 Pen	LLBPL07	£94.64
Inspection Folder, 10 Green & 2 Red Stickers & 1 Pen	LLBPS08	£67.86
Inspection Folder, 30 Green & 6 Red Stickers & 1 Pen	LLBPM09	£85.71
Inspection Folder 50 Green & 10 Red Stickers & 1 Pen	LLBPM10	£107.14

#### Personalised Ladder Log Tags

Why not add your company logo and brand colours to your inspection tags? Modify your tags to suit your business requirements; colour code based on department, add extra information or change the tag material, they don't even have to be used just with ladders in mind.

Mobile, Safety & Warehouse Steps

#### ARE YOUR WAREHOUSE STEPS **CERTIFIED TO EN 131?**

Following the introduction of part 7 to the EN 131 standard there is growing interest in tested warehouse steps. Heavy duty warehouse steps were previously covered within the European BGI637 standard and this standard was effectively incorporated into the scope of EN 131-7 in September 2013. This, together with the previous levels of parts 1 to 3 of the EN 131 standard, has defined criteria for design, test and certification across a wide spectrum of step units. We have a vast range of UK manufactured steps which are tested to the EN 131 standard and the EN 14183 standard and users are becoming increasingly interested in using products that have the benefit of conformance and certification. No longer can manufacturers & suppliers say that there is no British standard.

We have been the only UK manufacturer of Safety Steps which are accredited to the European GS & DGUV Standard for many years and elements of these relevant standards have been incorporated into our design and test criteria for all of our UK manufactured steps. This is so we can ensure that the necessary levels of product strength, durability and stability are achieved. Our manufacturing processes all take place under controlled conditions conforming to BS EN ISO 9001:2015 ensuring product conformity is verified.

- ✓ Powder coated for a durable finish
- ✓ Tested in excess of the load capacity

#### Fort® Handy Steps

- » Strong steel frame
- » Nestable, lightweight static steps

# TREAD OPTIONS

Phenolic (non-slip)

GS9306M

- Aluminium (non-slip)
- Expanded Steel Mesh

#### Why Choose Me?

- Box section profile -more steel gives greater stability & strength for industrial performance 60° angle gives a shorter overall depth & smaller turning circle 1000mm platform rail prevents over reaching Extra width at base gives even greater stability

#### **UNIQUE BOTTOM SWINGING STEP**

This feature lifts the bottom step preventing access while the unit is mobile. Handle mechanism is fitted to the right hand side as standard

# Fort® Heavy Duty 'Elite' Mobile Steps

- » Large working top platform: either 600D x 540W mm or extra wide 600D x 820W mm
- » Wide \*770mm tread models also available on 11-18 steps
- » Strongly constructed steps highly manoeuvrable & stable
- The units incorporate kick boards on 3 sides of the platform
- » 6 step units & above are sent folded for delivery - easy to erect

Safety, Strength & Durability

#### Why Choose Me?

Extra large platform sizes of 600x540 or 600x820mm

# UNIQUE BOTTOM SWINGING STEP

This feature lifts the bottom step preventing access while the unit is mobile. This also helps prevent knocked shins

#### **OPTIONAL EXTRAS**

Optional retro-fit lifting barrier to the front (entry) of the platform of these steps. Also for steps on pages 474 & 482

#### Fort® BS EN ISO 14122 Universal Modular Platform System

2 x UMP1003A, 1 x UMPHR1200,

2 x UMPHR0600 & 1 x UMP1201A

- » Certified to BS EN ISO 14122
- These modular units, constructed from steel angle, can be placed alongside each other to create a large working area
- The Universal Modular Platform System comprises a range of basic modules that can be bolted together in various configurations to provide permanent access to machinery/equipment that cannot be reached from ground level
- » Due to the modular design they are ideal for going round corners & the bridge modules are available to avoid obstructions or areas extending over conveyors
- » Adjustable feet to accommodate uneven flooring
- Platform modules are designed & tested to achieve a load of 500Kg/m U.D.L & a concentrated load of 150kg at any point
- » Optional floor fixings are available for permanent floor fixing (recommended over conveyors & moving obstructions)

### First Aid Cupboards

CLD1634

- Strong construction provides all round robustness
- » 'No snag' handles with 2-point locking
- » Adjustable spill-retaining galvanised shelves for superior spill management. Integral liquid-tight sump encourages the correct handling of spills through the use of absorbents (except the Wall Cupboard)
  - » White powder coated finish with identification symbol signs/labels
  - Powder coated with Germ Guard Active Technology anti-bacterial paint
  - Wall cupboards are pre-drilled for mounting (fixings not supplied)
  - Stands raise cupboards by 500mm & they incorporate an adjustable foot for uneven surfaces
  - Reaction to Fire Classification EN 13501-1

#### Office Desks, Seating & Canteen Furniture

Height Adjustable Office desks offer a combination of robust construction with an attractive design. The manual height adjustment mechanism allows the user to raise the height of the desk from 730mm to 950mm meaning that the user has the option to either sit or stand at their desk.

These desks are available in three widths to suit the requirements of the user with a choice of additional storage options including a three drawer mobile pedestal & single fitted drawer unit.

- » Ergonomic adjustable office desks
- Table top finish Beech
- » Load Capacity: 100kg
- » Adjustable in height from 730mm to 950mm
- Powder coated dark grey framework
- » No more banged knuckles desk can even be adjusted when positioned flush against a wall
- » Removable adjustment handle

#### CONDITIONS OF SALE:

#### 1. ACCEPTANCE

Acceptance of any order by the purchaser for the supply of goods will be subject to these conditions of sale.

#### 2. PRICES

#### PRICES QUOTED ARE NORMALLY EX-WORKS EXCLUSIVE OF VAT & CARRIAGE

Whilst we shall endeavour to maintain the prices shown, this we cannot guarantee & we reserve the right to charge the price ruling at date of despatch. In the event of a price alteration after an order has been placed & prior to despatch notification of such alteration will be made before despatch of goods.

Low value orders may be subject to an administration charge. Prices will be subject to any customs tariffs following Brexit

#### 3. SPECIFICATIONS

Due to continual improvements in the design & manufacturing methods strict accuracy of specifications & illustrations cannot be guaranteed. So that any product improvements can reach the purchaser as soon as possible the Company reserves the right to change design of specification without formal notice. Stated load capacities are for evenly distributed loads only & must not be exceeded.

#### 4. GUARANTEE\*

Where the goods have been supplied by the seller & are found to be defective, the seller shall repair, or at their discretion, replace defective goods free of charge within one year (unless otherwise stated) from the date of delivery, subject to the following conditions:

4.1 The buyer notifying the seller in writing immediately upon the defect becoming apparent.
4.2 The defect being due to faulty design, materials or workmanship of the seller.

4.3 Any goods to be repaired or replaced shall be returned to the seller at the buyer's expense, if so requested by the seller.

4.4 Where the goods have been manufactured & supplied to the seller by a third-party,

4.4 Where the goods have been manufactured & supplied to the seller by a third-party,

any guarantee granted to the seller in respect of the goods shall be passed on to the buyer.

4.5 The seller shall be entitled at their absolute discretion to refund the price

of the defective goods in the event that such price has already been paid. 4.6 Guarantee excludes product finish, locks, wheels & castors.

4.7 The remedies contained in this clause are without prejudice to the other terms & conditions herein.

#### 5. DELIVERY

Delivery dates are estimates only & the company shall not be liable for any loss or damages resulting from any delay in delivery. In addition we shall not be liable for any matter which results from any act of God, war or riot, extreme weather, strikes or any other events which are beyond our control. The company reserves the right to deliver goods by installments, each installment being treated as a separate contract. Goods will be delivered at the point most convenient to our carrier, usually the goods inwards department or reception on the ground floor. Further transfer or installation within the purchasers premises, particularly for large or heavy items, must be arranged prior to delivery & will be charged extra.

We can also not take responsibility for deliveries that require pallet trucks or fork lifts to offload from the courier or move the goods within your premises. All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier.

#### 6. CLAIMS

All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier. The company must be notified in writing of any damage or incomplete delivery within 3 days of delivery. No claims for shortage or damage will be entertained after a clear receipt has been given to the carriers. The company will not be liable if this procedure is not followed or if the goods have been moved by a third party to a further address.

Total non delivery due to loss in transit must be notified within 7 days of invoice. Goods are not sold for any particular purpose, the end user should be responsible for the suitability of the product for use. The company shall not be liable for any indirect or consequential loss arising out of or in connection with the sale of goods. Any claim is limited to the value of the goods purchased.

#### 7. RETURN OF GOODS

Standard goods will only be accepted for return after prior agreement with us & within 14 days of receipt. A handling charge may be imposed which will vary dependent on the condition of the goods when returned. Carriage charges for the outward journey plus the return of standard goods are payable by the purchaser. Bespoke goods manufactured specially for a customer **will not** be eligible for return.

#### 8. RESERVATION OF TITLE

Goods supplied will remain the property of 'the company' until full payment is received. In the event of sale of these goods to a third party "the company" reserves title to the proceeds of sale. Responsibility for maintenance & insurance passes to the purchaser on delivery.
